

## Junior Master Data Management Engineer

★ Luxfactory is an Economic Advisor and Innovation Partner  
Active in Luxembourg and the greater region for more than 25 years, Luxfactory manages for its clients all implementation projects in 4 areas: IT and digitalization, renewable energies, strategy and digital marketing. ★

We're currently looking to expand our team in Luxembourg with a **Junior Master Data Management Engineer** who will support our Core banking products. We are looking for someone who likes live communication as much as we do, but you can work from home once a week. Do you live in another country but considering moving to Luxembourg? We will do our best to help you.

### In this job, you will need to :

- Write well designed, testable and efficient parameters/code using NDH script language in accordance to story's requirements.
- Build data interfaces to import and export data to and from NDH.
- Build data quality checks on reference data according the business requirements (ex: financial assets).
- Setup and design NDH data dictionary following the business data model defined with data architects and NDH experts.
- Define & write unit and conformance tests (XRAY, Cucumber and Java Api).
- Develop and implement innovative solutions to improve and enrich our software solution portfolio.
- Deliver shippable features as part of a dedicated Scrum team.
- **Limited travel required. Please note that an EU valid work permit is required. Thank you.**

### You are someone who has...

- Advanced degree in software engineering or equivalent
- Experience in **RDBMS** model and SQL statements
- Strong knowledge with SQL, Data modelling, File structures like CSV, XML, JSON and Scripting / Algorithm
- Interest or experience in **ETL** concepts and tools
- Keen interest in **Data Management**
- Ability to work as part of an agile team
- Strong interest and motivation to learn **bank business areas:**

## LUXFACTORY

- Financial instruments, pricing, indices domain
- Bloomberg messages feeding (Six, WMdaten, Reuters, Fund Info,...)
- Transactional flows in and out
- Funds domain
- Legal reporting

### And also..

- An **agile mind-set**. It's not a buzz word: agility is about collaboration, growing together, supporting more junior team members, intellectual humility and strong desire to learn
- Proven ability to deliver against deadlines
- **True team player** as teamwork is at the heart of everything we do
- Fluency in **English** is a must. French is a nice to have.

### Why joining us?

- ♥ Develop and customize your long-term career in a fast-growing company
- ♥ Communication, responsibility, dynamism, and team spirit are the key words of our corporate culture
- ♥ Celebrate success as a team at our various corporate events (teambuilding, lunch, afterworks, ...)
- ♥ We offer an onboarding program as well as individual training and development opportunities
- ♥ We offer a very competitive package including an attractive salary, meal vouchers, leasing, training/certifications
