

## Agile Requirements Engineer

★ Luxfactory is an Economic Advisor and Innovation Partner  
Active in Luxembourg and the greater region for more than 25 years, Luxfactory manages for its clients all implementation projects in 4 areas: IT and digitalization, renewable energies, strategy and digital marketing. ★

We're currently looking to expand our team in Luxembourg with a qualified **Agile Requirements Engineer**, who will support the project of our client from IP sector. As part of the Innovation business unit, you will build the bridge between the business and development team. You will closely work together with subject matter experts, product owner/manager, software architect, developers and testers to define use cases and user stories.

We are looking for someone who likes live communication as much as we do, but you can work from home once a week. Do you live in another country but considering moving to Luxembourg? We will do our best to help you.

### In this job, you will need to :

- Identify, analyze, and specify requirements with the product owner, subject matter experts and users in the Scrum team
- Ask the right questions to the right people, offer alternatives in case of professional or technical obstacles and proactively demand clear decisions
- Make sure that implemented features are bringing value for the business
- Visualize processes and requirements
- Break down epics and features into user stories
- Explain and discuss requirements with the development team
- Verify that the deliverables meet the requirements
- Translate the product's roadmap into actionable artefacts (Use cases, Features, User Stories) for the development team

### You are someone who has...

- A bachelor's degree or comparable in computer science or related field
- Have at least 3 years of job - relevant experience (e.g., as requirements engineer, product owner, lean product manager) in an agile environment
- Analytical thinking and solution-oriented

## LUXFACTORY

- Very good moderation and presentation skills, good communication skills
- Ideally have basic knowledge in hands-on software development
- Have an eye for details and at the same time keep an eye on the big picture
- Interest and up to date regarding technical innovations
- Familiarity with the Intellectual Property industry is considered an asset
- Excellent written and verbal communication skills
- Languages: excellent command of English

### Why joining us?

- ♥ Develop and customize your long-term career in a fast-growing company
- ♥ Communication, responsibility, dynamism, and team spirit are the key words of our corporate culture
- ♥ Celebrate success as a team at our various corporate events (teambuilding, lunch, afterworks, ...)
- ♥ We offer an onboarding program as well as individual training and development opportunities
- ♥ We offer a very competitive package including an attractive salary, meal vouchers, leasing, training/certifications

Feel free to send your CV to **itconsulting@luxfactory.com** or contact us for further information!
