

Software Developer (.NET)

★ Luxfactory is an Economic Advisor and Innovation Partner
Active in Luxembourg and the greater region for more than 25 years, Luxfactory manages for its clients all implementation projects in 4 areas: IT and digitalization, renewable energies, strategy and digital marketing. ★

We're currently looking to expand our team in Luxembourg with a qualified **Software Developer (.NET)**, who will support the project of our client from IP sector. As a member of our IP Core Systems team, you will create innovative products allowing our global IP business to run its daily operations in a smooth and efficient way. As a member of an agile team, you will work closely together with your Team Lead, Product Manager, Quality Engineers and other Software Developers responsible for those products. Let's innovate together!

We are looking for someone who likes live communication as much as we do, but you can work from home once a week. Do you live in another country but considering moving to Luxembourg? We will do our best to help you.

In this job, you will need to :

- Be responsible for the design, development and delivery of new features for our products
- Code, test, and maintain core product software and databases to ensure strong optimization and secure functionality
- Work closely with other developers to ensure the best product
- Contribute to the continuous development of the existing products
- Write well-designed, clean and testable code and perform code reviews
- Align with end-users to deliver best results
- Bring in new ideas to improve existing code base
- Operate platform and support other stakeholders from our offices around the world with technical training
- Work with IT infrastructure teams to securely deploy, automate and maintain applications "You build it, you run it"

LUXFACTORY

You are someone who has...

- A degree in computer science, engineering, or a related field, and/or relevant professional experience
- Very good knowledge of **.NET** (4.7 and above) with **C#, ASP.NET** (Core / Web API / OWIN)
- Good knowledge in JavaScript and client side SPA frameworks such as **Angular** / React / VueJs and/or
- Good knowledge of **SQL** and experience with SQL Server (2016 and above). No-SQL is considered as an asset
- Good knowledge of SOLID, TDD, Micro Services / SOA
- Experience with CI/CD pipelines and containers (Docker, Kubernetes) is considered as an asset
- Excellent communication skills – in person, via email, phone or remote tools
- Fluency in **English** is mandatory, French and/or German is considered as an asset

Why joining us?

- ♥ Develop and customize your long-term career in a fast-growing company
- ♥ Communication, responsibility, dynamism, and team spirit are the key words of our corporate culture
